

TULSA GMC LUNCH BUNCH

Founders Glyn & Melrose Trimble (1999)

August 3, 2018

The Tulsa GMC Lunch Bunch met today for the monthly luncheon at the Golden Corral located at East 71st Street and South Mingo Road in Tulsa. There was a total of 32 in attendance.

Present were Clyde Jones, Clark Southmayd, Bernie & Renee Baldwin, Bob & Charlotte Ankershiel, Jim & Betty Haynes, Irv & Shirley Pense, Chuck Meyers, Robert & Marilyn Musgrove, Fred & Peggy Pitezal, Ken Broostin, Larry & Joanna Potts, Geoffrey & Peggy Alexander, Sharon Eimen, Monte & Helen Jestes, Alan & Janice Thomas, Tommy Manning. Pat & Susan O'Brien were also present along with their two granddaughters Julia and Elizabeth.

Larry & Rosemary Humphrey drove their recently acquired coach to the luncheon today. Due to health reasons, they were not able to join us inside for the luncheon. However, several GMC owners visited with them in their motorhome. One of their questions was about how to get the roof air conditioner to work using the generator. After some detective work, the proper switches were identified; and, the mystery was solved. The generator was running, and the roof air conditioner was cooling when they left the parking lot. Maybe they can join us for lunch next month.

The working rally hosted by Monte and Helen Jestes from July 11-13 was a great success!! Maintenance issues addressed included wheel bearings needing grease, fuel filters replaced, generator maintenance, a distributor modified, and replacing a distributor and other ignition components. Eventually, all five coaches headed home.

Geoffrey and Peggy Alexander's coach made its 'newly painted' debut at the working rally showing off a beautiful paint job accomplished by Ethan at Rush Truck Center Tulsa. A few days after the working rally ended, Geoffrey and Peggy headed to EAA AirVenture Oshkosh 2018 to take in the event and (maybe) show off that new paint job. During their travels, they were in several heavy rain events with *no leaks* reported!! That stands as impressive as the new paint job is beautiful!! The decision to have the roof sprayed with pickup truck bed liner seems to have been a good one. Monte Jestes also attended the Oshkosh event by flying there; and, he was able to visit with the Alexander's one evening.

Happening!

- Peggy Pitezal said that her back is feeling much better.
- Charlotte reported that they have enjoyed recent trips to Israel, Washington state, and Robbers Cave in Oklahoma.
- Doree and daughter Jolene are in Minnesota for a relative's funeral. Ken and the Airedale, Skylar, are at home wondering where their next meal is coming from.
- Marilyn and Robert were in Southlake TX a few days ago to visit relatives; and, Robert managed to work in a Rangers baseball game.

See you next month.
